

getOrientationValue

```
graph LR; A[getOrientationValue] --> B[SensorErrorCheck]
```

A flowchart consisting of two rectangular boxes connected by a horizontal arrow. The first box on the left is gray with a black border and contains the text 'getOrientationValue'. A blue arrow points from the right side of this box to the left side of the second box. The second box on the right is white with a black border and contains the text 'SensorErrorCheck'.

SensorErrorCheck
