

isHumiditySupported

```
graph LR; NewHumidity --> isHumiditySupported
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'isHumiditySupported'. The box on the right is white and contains the text 'NewHumidity'. A dark blue arrow points from the right side of the 'NewHumidity' box to the left side of the 'isHumiditySupported' box, indicating a dependency or relationship where the new humidity value is used to determine if humidity is supported.

NewHumidity
